Stewardship Handbook Insight Needed

The Blue Mountain Land Trust would like your input while deciding which topics to include the Blue Mountain Land Trust Stewardship Handbook about conservation and stewardship of the Walla Walla Valley. So far, the general headings are conservation of water, wildlife and natural habitat, forests, agricultural soil, energy, and scenic views. If you have any opinions or insights you would like to share, they would be greatly appreciated. Send an email to John Hawkins at bmlthandbook@gmail.com, or call the BMLT office at 525-3136.
